

ASSE San Jose Chapter Consultants Directory

The ASSE San Jose Chapter maintains a directory of occupational health and safety professionals that provide services on a contract consulting basis. The directory is not intended to be a “resume posting service” for individuals in search of regular employment

The Chapter provides the directory as a benefit to the membership and the listing professional member and does not endorse nor warrant the services offered for hire.

To appear in the directory, the listing professional must be a member of the Local San Jose Chapter of the ASSE. Complete the MS WORD™ document Directory Form and submit to the ASSE San Jose Chapter Jobs Coordinator, David Krack, at dkrack@ohp-inc.com for inclusion into the directory. Please do not format text with bullets or font formats.

The Directory was updated last on ...***Sunday, September 20, 2009***
